Products & Services

Build a credentialed workforce

EA is the custodian of the sought-after Chartered credential and Engineering Executive (EngExec) credentials.

Awards and Recognition

Celebrate outstanding achievement in engineering.

Graduate Program

An 18-month innovative program designed to enhance the contribution of graduates within the workplace.

Registered Training Organisation

Customised training through Engineering Education Australia (EEA).

Jobs Board

Promote graduate opportunities within your business.

Industry Insight

EA provides data and insight into the engineering industry, and advocates for the importance of engineers and engineering matters to government.

Partner with EA

Bespoke, strategically designed partnership initiatives.

Conferences

EA hosts over 20 national and international conferences each year.

Compliance

The National Engineering Register (NER) provides assurance to consumers about a registered engineer's capabilities.

EngInsure

Robust business insurance and risk solutions that protect assets and manage exposures for engineers.
